BACTERICIDAL WASHING UP LIQUID

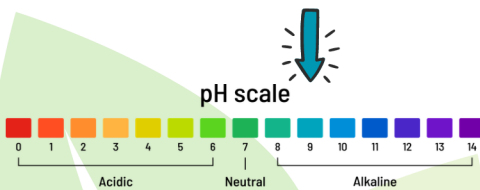

-  Taint free
-  Non-foaming
-  Powerful Formula

Description:

PROJANTA Bactericidal Washing Up Liquid (17005) is an odourless hand dishwashing liquid designed to cut through grease and grime while leaving a sparkling finish. Formulated with an effective bactericide, this neutral, high-foam product is ideal for the food industry and catering market where hygiene and non-tainting performance matter.

Suitable for cleaning plates, crockery, utensils, glassware, glasses, tumblers and pint pots, it offers dependable everyday washing-up performance in busy professional kitchens and bars.

Useful Information:

Product Code:	17005
Product Colour:	Green
Product Fragrance:	Odourless
pH Level:	8 - 10

Directions:

Dilute the product at a rate of 1 part washing up liquid to 80 parts warm water in a washing-up bowl before use. Add crockery, cutlery, glassware or other items to the prepared solution and allow them to soak for a few minutes to help loosen grease and food residues. Clean thoroughly using a sponge, brush, scourer or pad as appropriate, then rinse with potable clean water and allow items to air dry.

Suitable for manual pot wash applications in food industry and catering environments, including cafés, canteens, pubs and restaurants, where an odourless detergent is required.
