CLEANBRITE POWERFUL LEMON DEGREASER

-  Super Concentrate
-  Water Soluble
-  Powerful Formula

Description:

ProJanta Cleanbrite Super 5L is a super concentrated lemon cleaner developed for heavy-duty cleaning where powerful performance is required. Formulated to remove the heaviest soil, it cuts through grease, oil and grime with ease, while also helping to dissolve fats and stubborn marks such as blood stains. This makes it a strong choice for demanding cleaning tasks in areas where built-up dirt and greasy residues need effective treatment. Supplied as a green, water-soluble liquid with a pleasant odour, it can be used across a range of cleaning methods including mopping, spray and scrub applications, and pressure washing. With a concentrate pH of 13 - 14, it should be diluted to suit the job in hand. Always use appropriate PPE, including gloves and eye protection, during use.

Useful Information:

Product Code:	260601
Product Colour:	Green
Product Fragrance:	Lemon
pH Level:	13 - 14

Directions:

Cleanbrite Super should be diluted with clean water according to the level of soiling and the method of application. For heavy-duty degreasing and the removal of fats and waxes, dilute at 1:10 with hot clean water and apply using a mop, spray and scrub system, or other suitable cleaning equipment. For pressure washing applications, dilute at 1:50 with hot or cold clean water. For general or light regular cleaning, dilute at 1:100 with hot or warm water before application. The product is suitable for demanding cleaning tasks where grease, oil, grime, fats and other heavy deposits need to be removed, and may also be used for lighter routine cleaning when diluted accordingly.

When handling and using the product, suitable protective gloves and eye protection should be worn. After use, keep the container tightly closed and store in a cool, well-ventilated area.
