## TRIPLE BAC NEUTRAL SANITISER AND DISINFECTANT

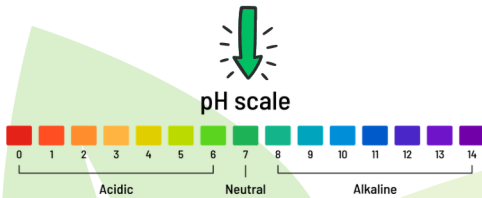

- 60 Second Disinfection
- Odourless & Neutral
- Cleans & Sanitises

## Description:

Triple Bac Sanitiser 5L is a powerful, odourless neutral sanitiser developed for daily hard-surface disinfection in hygiene-critical environments. Designed to clean and sanitise in one step, it kills 99.999% of bacteria with a 60-second contact time and is effective against organisms including *Staphylococcus aureus*, *E. coli*, *Salmonella* and *Pseudomonas aeruginosa*. It also targets yeasts, fungal spores and enveloped viruses, achieving 99.99% effectiveness against enveloped viruses within 60 seconds.

Safe for use on glass, aluminium, stainless steel, rubber, ceramic, plastic and tiled surfaces, it is ideal for kitchens, bakeries, food preparation areas, retail settings and healthcare environments.

## Useful Information:

Product Code:	5369
Product Colour:	Yellow
Product Fragrance:	Alcohol
pH Level:	7

## Directions:

Triple Bac Sanitiser should be used as part of a daily cleaning and disinfection routine on hard surfaces where effective hygiene control is required. Apply the product evenly to the surface to be treated, ensuring full coverage across work surfaces, equipment, floors, walls and other washable hard surfaces, and allow a contact time of 60 seconds to achieve effective sanitising performance. The odourless, neutral formula cleans and sanitises in one step and is suitable for use on glass, aluminium, stainless steel, rubber, ceramic, plastic and tiled surfaces.

Ideal for kitchens, bakeries, food preparation areas, retail environments, healthcare settings, delivery vehicles and animal-related facilities where reliable day-to-day disinfection is needed.
