ECO LOGIK GLASS & PLASTIC CLEANER

-  Streak-Free Finish
-  Ammonia Free
-  Ready to Use

Description:

ECOLOGIK Glass Cleaner 750ml is a ready-to-use glass and plastic cleaner designed to cut through grease and dirt quickly, leaving a sparkling, streak-free and smear-free finish. Free from ammonia and abrasives, it cleans effectively without leaving chalky deposits, making it ideal for environments where a clear, polished appearance is important.

Suitable for general janitorial use, it can be used on windows, double glazing, mirrors, display units, glass shelves, VDU screens, ceramic tiles, laminates, stainless steel, aluminium and other hard surfaces. Its versatile formula makes it a practical choice for routine cleaning across offices, public buildings, retail spaces and other commercial settings.

pH scale

Useful Information:

Product Code:	CG14
Product Colour:	Blue
Product Fragrance:	Odourless
pH Level:	6 – 8
Also available in:	10L, 20L

Directions:

Glass Cleaner should be used undiluted for the routine cleaning of glass, plastic and other hard surfaces where a streak- and smear-free finish is required.

Spray directly onto the surface and wipe away with absorbent paper or a clean lint-free cloth to remove grease, dirt and marks effectively. For delicate or awkward areas such as VDU screens and similar sensitive surfaces, apply the product to a cloth first and then wipe the surface to a clean, dry finish. A lint-free glass-cleaning microfibre cloth may be used for best results. Suitable for use on windows, double glazing, mirrors, display units, glass shelves, ceramic tiles, laminates, stainless steel, aluminium and other hard surfaces.

After use, keep the container tightly closed and store in a cool, well-ventilated area.
