LUSTRE FURNITURE POLISH

- Restores Shine
- Fresh Fragrance
- Cleans, Shines and Fragrances

Description:

ProJanta Furniture Polish Lustre is a practical furniture care product designed to clean and polish in one simple application.

Developed for professional cleaning environments, it provides strong cleaning action while leaving furniture and fittings with a fine, lustrous finish that helps improve overall presentation. Ideal for use in offices, clubs, hotels and similar settings, it is well suited to desks, tables and other fitted furniture where a quick, efficient turnaround is needed. In addition to restoring shine, it also helps freshen the air during use, making cleaning areas feel more pleasant after treatment.

Its simple spray-and-buff method makes it easy to use as part of routine maintenance, with the surface lightly sprayed and then buffed dry using a clean dusting cloth or suitable applicator.

Directions:

Furniture Polish Lustre should be applied lightly to the surface to be polished, using a fine spray to ensure even coverage without over-wetting. Once applied, buff the surface dry with a clean dusting cloth or other suitable applicator to restore shine and leave a clean, lustrous finish.

The product is suitable for use on furniture and fittings in offices, clubs, hotels and similar environments where a quick, effective spray-and-buff application is required. Ideal for desks, tables and other fitted furniture surfaces, it helps clean and polish in one step while enhancing overall presentation.
