## REFLECT GLASS AND MIRROR CLEANER

- Smear-Free
- Clear Finish
- Water Soluble

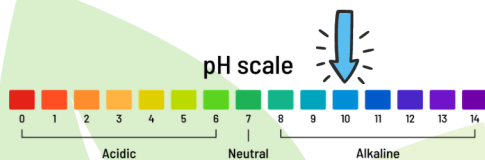

## Description:

ProJanta Reflect Glass Cleaner is a versatile cleaner developed for use on windows, mirrors, VDU screens and keyboards, making it ideal for both housekeeping and office cleaning routines. It cuts through everyday dirt and marks quickly, helping leave surfaces with a sparkling, streak-free and smear-free finish. Designed for convenient undiluted use, it is simply sprayed onto the surface and wiped away with absorbent paper or a lint-free cloth for a clean, polished result.

For more delicate or awkward areas, it can be applied to a cloth first before wiping, helping provide better control during use.

Supplied as a blue, water-soluble liquid that offers a practical and efficient solution for maintaining clean, clear and well-presented glass and screen surfaces.

## Directions:

Reflect Glass Cleaner should be used undiluted for the routine cleaning of windows, mirrors, VDU screens and keyboards. Spray directly onto the surface and wipe away using absorbent paper or a clean lint-free cloth to leave a sparkling, streak- and smear-free finish. For delicate or awkward areas such as screens and keyboards, apply the product to a cloth or lint-free material first, then wipe the surface clean and dry. A lint-free glass-cleaning microfibre cloth may be used for best results. Suitable for housekeeping and janitorial cleaning routines where a clear, polished finish is required.

When handling and using the product, suitable protective gloves and eye protection should be worn. After use, keep the container tightly closed and store in a cool, well-ventilated area.

## Useful Information:

Product Code(s):	HK05750 / HK055
Product Colour:	Blue
Product Fragrance:	Ammonia
pH Level:	9 - 11
Also available in:	750ml, 5L
