STAINLESS STEEL POLISH LOW ODOUR & NON TAINING

-  Taint free
-  High Gloss
-  Ideal for Kitchens
and Washrooms

Description:

ProJanta Stainless Steel Polish 750ml is a low-odour, non-tainting cleaner polish developed for stainless steel and other bright metal surfaces. It is designed to clean and enhance appearance in one step, helping create a high-gloss finish that improves the presentation of metal fixtures and fittings. Ideal for use in kitchens, washrooms and public areas, it is well suited to environments where clean, polished metal surfaces contribute to a professional appearance.

The formula should be used sparingly for best results, with any heavy contamination removed first before lightly spraying the product onto the surface. It should then be wiped immediately with a lint-free cloth or paper and buffed dry to achieve a bright, polished finish.

Supplied as a colourless, non-aqueous product in a convenient 750ml pack.

Useful Information:

Product Code:	HK09
Product Colour:	Clear
Product Fragrance:	Slightly Acetone
pH Level:	N/A

Directions:

Stainless Steel Polish should be used sparingly to clean and polish stainless steel and other bright metal surfaces to a high-gloss finish. Where heavy contamination is present, remove this first before application. Lightly spray the product onto the surface, then wipe immediately with a lint-free cloth or paper to spread the product evenly and lift any remaining marks. Finish by buffing dry with a clean dusting cloth or other suitable applicator to achieve the best shine. Suitable for use in kitchens, washrooms and public areas where a polished, non-tainting finish is required.

When handling and using the product, suitable protective gloves and eye protection should be worn. After use, keep the container tightly closed and store in a cool, well-ventilated area.
