

# RELAVIT

# AUTODISH T

## Machine dishwashing detergent

A machine dishwash detergent that removes soiling and food deposits. RELAVIT AUTODISH T is a clear liquid with a high sequestrant content, which allows it to be used effectively in both soft and hard water areas. Designed for washing cutlery, crockery, stainless steel and utensils.

**N.B.** Do not use on aluminium, zinc, magnesium and their alloys.

### METHOD OF USE

Wear correct PPE when changing dishwashing tubes.

Turn off the dishwasher and remove the existing detergent.

Carefully remove the dishwashing tube out of the RELAVIT Autodish T container.

Place the tube into the new container of RELAVIT Autodish T.

Put the RELAVIT Autodish T back by the dishwashing machine.

Run the dishwasher cycle to ensure the product is pulling through.

### DOSAGE

| WATER HARDNESS |                             |
|----------------|-----------------------------|
| SOFT WATER     | 1 - 4mls per litre of water |
| HARD WATER     | 4 - 8mls per litre of water |

MACHINE DISHWASHING DETERGENT

- REMOVES STUBBORN SOILAGE AND FOOD DEPOSITS
- ECONOMICAL IN USE
- ANTI CORROSIVE – PROTECTS YOUR MACHINE

## PRODUCT DESCRIPTION

RELAVIT Autodish T is a clear liquid with a high sequestrant content, which allows it to be used effectively in both soft and hard water areas. An anti-corrosive agent has been added to the formula to protect the machine.

Designed for washing cutlery, crockery, stainless steel and utensils, RELAVIT Autodish T is suitable for all automatic dish washing machines in cafés, restaurants, hotel kitchens, canteens, etc.

Can be used as an effective detergent for tray washing machines in the food industry.

## INSTRUCTIONS FOR USE

### Soft water areas

1ml – 4ml per litre of water.

### Hard water areas

4ml – 8ml per litre of water.

Put dosing tube into the container of RELAVIT Autodish T, so that it reaches the bottom. The dosing unit, which has been pre-set to a specific concentration, will automatically dispense RELAVIT Autodish T into the machine.

**N.B.** DO **NOT** use on aluminium, zinc, magnesium and their alloys.
